RE: Complaint of Whiterocks Irr. Co. v. State Engineer and
Ouray Park Irr. Co.; appeal from Amended Order of Uinta
River Storage Schedule dated October 15, 1990

Attached is a copy of a Complaint timely filed November 14, 1990 by Whiterocks Irr. Co. The basis of the appeal seems to be an argument that allowing storage in Brough Reservoir during the non-irrigation season with a 1933 priority is an enlargement of the right.

Please review that particular allegation as well as any others made. I will be contacting you shortly for your comments as the Answer to the Complaint is drafted.
